RE: Preliminary scope determination – antidumping duty order on solid fertilizer grade ammonium nitrate from Russia (A-462-811).

1. On May 17, 2013, in response to a request by KCKK Mineral Fertilizer Plant, OJSC, part of the Uralchem, OJSC group of companies (collectively, “Uralchem”), Commerce issued a preliminary scope determination that NS 30:7 which Uralchem exports is within the scope of the antidumping duty order on solid fertilizer grade ammonium nitrate from Russia (A-462-811).
2. Because the imported product is an ammonium nitrate product comprised predominantly of ammonium nitrate and used in the same niche-market applications as the domestic like product, Commerce preliminarily found NS 30:7 to be within the scope of the order.
3. CBP should suspend liquidation of entries of solid fertilizer grade ammonium nitrate from Russia subject to the antidumping duty order, including NS 30:7 exported by Uralchem effective 11/02/2012, which is the date of initiation of the scope inquiry.
4. If there are any questions by the importing public regarding this message, please contact the Call Center for the Office of AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce at (202) 482-0984. CBP ports should submit their inquiries through authorized CBP channels only. (This message was generated by O2:HR.)
5. There are no restrictions on the release of this information.
